Summary

Results-driven Systems Engineer and support professional with hands-on experience in live streaming infrastructure, customer service, virtual assistance, and web development. Skilled in Ubuntu, VMware, OBS, Wirecast, CDN and streaming platforms, and modern website tools including HTML, CSS, JavaScript, WordPress, and Supabase. Recognized for strong troubleshooting, client communication, and project coordination, with a proven ability to maintain reliable operations, adapt quickly, and deliver high-quality work in fast-paced environments.

Experience

Web Developer

Freelance / Project-Based | Jan 2026 - Present

- Designed and developed responsive websites using HTML, CSS, and JavaScript.
- Built landing pages and business websites based on client requirements.
- Managed source code and version control using GitHub
- Deployed websites via GitHub Pages and Netlify.
- Integrated backend services using Supabase (database, storage, authentication).
- Collaborated with clients to deliver functional and user-friendly solutions.

Virtual Assistant / Customer Service (Part-Time)

US Inspect Group, Inc. | Apr 2026 - Present

- Handled inbound client calls, identifying needs, concerns, and service requests including termite, radon, and home inspection services.
- Coordinated with clients, inspectors, and internal teams to ensure smooth scheduling and service execution based on property requirements.

Database & Backend:

Supabase

CRM & Customer Support

Tools: ISN (Inspection Support Network), Five9, Textline

Tools & Productivity: Visual Studio Code, Microsoft Office, Google Workspace, Canva

Core Competencies

Customer Support & Client Relations

Virtual Assistance & Lead Generation

Project Management & Leadership

Performance Monitoring & Troubleshooting

- Scheduled appointments for clients, inspectors, and subcontractors using the ISN system.
- Utilized Five9 for call management and Textline for client messaging and communication.
- Managed email correspondence, ensuring timely responses and accurate information delivery.

Systems Engineer / Streaming Specialist

The Pinnacle Operating Systems Inc. | Jul 2024 - Oct 2025

- Optimized high-traffic live streaming platforms, significantly improving stability and achieving zero downtime.
- Diagnosed and resolved system bottlenecks, improving peak concurrent performance.
- Performed software debugging, upgrades, and maintenance to enhance system efficiency.
- Configured cloud servers and encoder technologies, increasing stream quality and reliability.
- Deployed streaming engines on Ubuntu VMs and implemented SSL security.

Data Entry & Lead Generation Specialist

Infernozilla | Oct 2023 - Jun 2024

- Collected and analyzed targeted data from Steam, YouTube, and TikTok to support client marketing strategies.
- Organized large Excel datasets, improving reporting accuracy and workflow efficiency.
- Enhanced database structures for better tracking and retrieval.

Customer Service Representative

Asian Technology Services Inc. | Jan 2019 - Jul 2023

- Handled customer inquiries and transactions with 98%+ accuracy and confidentiality.
- Managed financial-related accounts while following strict compliance standards.

- Prepared Excel reports and documentation for internal audits.
- Maintained KPIs despite high-volume daily operations.

Leadership Experience

Local Organization - External Vice President
